## Annual Meeting & Gathering

Following a great day celebrating the 80th anniversary and the dedication of the Cook-Albert Fuller Nature Center, join us for our Annual Meeting. Enjoy appetizers and drinks at 5:00 PM while staff and The Ridges Board share the Year in Review. At 6:15 PM, relax and visit with friends over a delicious evening meal. Tickets are \$45/person. Space is limited, so we encourage you to reserve your spot soon! RSVPs requested by July 28. 920-839-2802 or online: [www.RidgesSanctuary.org](http://www.RidgesSanctuary.org)

Two board members, **Jane Whitney** and **Vicki Medland**, are ending their first three-year terms in August. Both wish to continue to serve on the board and have been nominated by the Board for second terms. We also thank **Ed Miller** and **Jim Jauquet** for their service, as they will end their second board terms in August. The Board nominates **Sandy Miller** and **Linda Brooks** to fill the two vacancies. Please review their biographies below in preparation for voting.

### Sandy Miller

Sandy received her Bachelor of Science degree in chemistry and biology from Carroll College (now Carroll University) in Waukesha, WI. This served her well during her 35 years of employment with the Wisconsin Department of Natural Resources in the Air Monitoring and Hazardous Waste Manage-

## Schedule of Events

9:00 am

Cook-Albert Fuller Center opens

10:00 am

# RIDGES LITES

## An Update of Ridges Activities

### Backpack Adventure Camps

Mark your calendars for our Backpack Adventure Camps! Throughout the month of July we invite campers age 4-6 and 7-11 to join us for weeks filled with adventure, exploration, and discovery.

Camps are held Monday through Friday, 9-Noon, and are a great opportunity for kids to make new friends, be inspired by our staff and connect with nature. Every Friday campers will enjoy "Friday Fun Day" - a day at the beach when families can join campers for a snack and activity. Register your child by individual days or by the week. Only 20 total spots per camp, per day, register now to reserve your spot.

Register online at [RidgesSanctuary.org](http://RidgesSanctuary.org) or by calling 920-839-2802.

**Cost per child** (Each child will receive a Ridges T-shirt):

- Full Week: \$100 – Members • \$130 – Public
- Per Day: \$25 – Members • \$30 – Public

#### WEEK 1: July 10 - 14

##### **Critters Club** – Ages 4 - 6 (full week option is full)

Learn about the variety of critters that live at The Ridges by building different habitats in our observational tanks. Campers will take care of these tanks throughout camp.

##### **Trail Trekkers** – Ages 7 - 11

Explore and trek through the Family Discovery Trail and the many things it has to offer.

#### WEEK 2: July 17 - 21

##### **Happy Hikers** – Ages 4 - 6

The Ridges is home to many different habitats. Learn about the different habitats and explore what plants and animals live in each.

##### **Mucky Ducks** – Ages 7 - 11

It's time to get muddy and muck through water habitats of The Ridges.

#### WEEK 3: July 24 - 28

##### **Tiny Twigs** – Ages 4 - 6

Discover what types of trees live at The Ridges and how they support the different wildlife that call this place home.

##### **Ridges Rangers** – Ages 7 - 11

Spend the week learning how to explore, navigate and survive the great outdoors.

#### WEEK 4: July 31 - August 4

##### **Monarch Madness** – Ages 4 - 6

Learn about the importance of Monarchs and what makes them so magical. Study the Monarch's habitat and learn how to raise this beautiful insect at home!

##### **Monarch Madness** – Ages 7 - 11

Become a citizen scientist and discover what it takes to help restore a population.

### Monarch Madness

Have you ever seen a monarch chrysalis or held a monarch caterpillar? Do you know what Milkweed looks like and why it is so important for Monarchs? **Visit our Nature Center anytime in August** to witness live Monarchs at various stages of their life cycle and to learn about this fascinating insect. Great for all ages!

#### **Monarch Migration Presentation**

The Monarch migration is one of nature's most fascinating annual events. Every fall, Wisconsin's Monarchs travel thousands of miles to a specific region in Mexico. Dick Smythe and Marilyn Hansotia will share their personal experiences with overwintering Monarchs in Mexico.

**Saturday, August 26; 11 AM – 12 PM**

**Fee:** Free

**Location:** Cook-Albert Fuller Center

#### **Monarch Tagging Workshops**

Every fall as Monarchs travel thousands of miles to overwinter, their migration can be tracked and studied by tagging them. Learn why tagging is important and how you can raise Monarchs at home. Help us tag and release our Monarch butterflies before they make their long journey south. Great for all ages!

**Saturday, August 26; 1 PM & 3 PM**

**Fee:** \$5 - Members • \$8 - Public • Free - Under 18

**Location:** Cook-Albert Fuller Center

# RIDGES LITES

A Program Guide of The Ridges

## Hiking at The Ridges Campus

Come visit us to experience all The Ridges has to offer. Our trails are open for hiking and enjoying nature. Stop by the nature center to pick up a trail map and pass.

### ***Naturalist Guided Hikes***

Join a Ridges naturalist for a relaxing 2 hour walk on the trails. Learn a little about the history of The Ridges and a lot about the wildflowers, insects and other features of Wisconsin's first land trust. Includes access to the Upper Range Light lantern room. Appropriate for all ages. NO REGISTRATION REQUIRED

**May 29 – June 9; daily at 10 AM**

**June 10 – August 31; daily at 10 AM & 2 PM**

**Fee:** \$5 - Members • \$8 - Public • Free - Under 18

**Location:** Cook-Albert Fuller Center

### ***Discovery Bird Hikes***

Join fellow birding enthusiasts for a morning excursion into the woods, fields and shoreline around Baileys Harbor. All members of our group collaborate to identify the birds we see. Both beginners and experienced birders welcome! Bring your binoculars or use those we supply.

**Saturdays; June 3, 10, 17, 24 & July 1, 8, 15, 22, 29 at 6:30 AM**

**Fee:** \$5 - Members • \$8 - Public • Free - Under 18

**Location:** Meet at the Ridges Cabins, 8288 Cty Q

### ***Not-So-Early Bird Hike***

New to birdwatching? Join us on this mid-morning birding excursion into the woods, fields, and shoreline around Baileys Harbor. Beginners are especially encouraged to come, but all levels of experience are welcome. Bring binoculars if you have them or use those we supply.

**Saturdays, June 17 and July 15 at 9 AM**

**Fee:** Free - Members • \$5 - Public • Free - Under 18

**Location:** Meet at the Ridges Cabins, 8288 Cty Q

### ***Appel's Bluff Hikes***

Join a naturalist to explore this varied landscape featuring ledges, a hardwood forest, and open fields. Moderate to easy hiking. Wear appropriate footwear.

**Sundays; June 4, July 2, August 6 at 2 PM**

**Fee:** \$5 - Members • \$8 - Public • Free - Under 18

**Location:** Cook-Albert Fuller Center, then to trailhead.

### ***Logan Creek Hikes***

Explore the beautiful landscape of this 170-acre parcel on Clark Lake featuring upland hardwood forest, lowland cedar-hemlock forest and frontage along Clark Lake and Logan Creek. Moderate to easy hiking. Wear appropriate footwear and bring binoculars if desired.

**Sundays; June 18, July 16, August 20 at 2 PM**

**Fee:** \$5 - Members • \$8 - Public • Free - Under 18

**Location:** Meet at trailhead, 5724 Loritz Road.

### ***Family Discovery Trail***

Exploration Stations will reopen on June 10th! Stations include binoculars to observe birds, bug nets to catch butterflies, and a bone yard. As part of the McArde Library and the Door County Library Summer Reading program, we're offering a StoryWalk featuring *A Whiff of Pine*, *a Hint of Skunk- A Forest of Poems* by Deborah Ruddell and Joan Rankin. Stop by the Nature Center to pick up a pass and head out into the trail!

**June 10 – October 21, daily; dawn to dusk**

**Fee:** \$5 - Members • \$8 - Public • Free - Under 18

**Location:** Behind the Baileys Harbor Fire Department and across from County Q and Highway 57 intersection.

### ***Special Request Guided Hikes***

**Looking for a fun family outing  
or the perfect activity for visiting friends?**

***Schedule a guided hike with a naturalist!***

Call us in advance at 920-839-2802 so we can properly prepare for the hike to give you the best experience possible.

**Fee:** \$5 Members • \$8 Public • Under 18 free

# RIDGES LITES

## A Program Guide of The Ridges

### Educational Programs

#### ***Nature Play Day***

What do climbing boulders, building tree forts and creating crafts out of natural materials all have in common? Nature Play! It is important for children to explore and interact with the natural world. Join us for a day full of activities that encourage children to connect with the outdoors. Our front yard is a child's natural playground.

**Saturday, June 10; 10 AM – 4 PM**

**Fee:** Free

**Location:** Cook-Albert Fuller Center

#### ***Photographing Wildflowers – Doug Sherman***

Doug Sherman, author of *The Ridges Sanctuary: An Intimate View*, will present a program on photographing wildflowers. Doug spent more than twenty years photographing the wildflowers of The Ridges Sanctuary. He has also traveled the country to capture wildflower images which have appeared in Sierra Club, Audubon, and Arizona Highways calendars as well as magazines and books.

This program will feature discussion on photos found in Doug's book, camera techniques utilized to capture outstanding images as well as guidelines for composition and post-processing techniques used in Lightroom and Photoshop to achieve desired results. The program will be followed by a guided photo-ops hike to capture some of your own wildflower images. *Doug's photos will be on display for the month of June.*

**Saturday, June 24; 1 – 4 PM**

**Fee:** \$10 - Members • \$13 - Public

**Location:** Cook-Albert Fuller Center

#### ***Intro to Flowers: Form and Function Donna Danielson***

There is amazing diversity among flowers, but they generally share the same basic parts. Spend a morning studying flower anatomy and learn how flowers function. You will never look at flowers the same again. We will study at least three different plant families. This program is perfect for plant enthusiasts and artists alike. **Level:** No experience necessary.

**Saturday, July 1; 9 AM – 12 PM**

**Fee:** \$25 - Members • \$30 - Public • \$5 - Under 18

**Limit:** 16

**Location:** Kaye Cabin

#### ***Intro to Field Sketching: Beautiful Botanicals – Natalie Renier***

Join us on the trails to learn how to make observations and sketch what you see in a relaxed and comfortable setting. Visual note taking is an invaluable tool to enhance learning and gain an appreciation for the natural world. This workshop is designed to set-up your field sketching kit and give you the basis to start your very own nature journal. Naturalists and artists

from beginner to the seasoned sketcher will enjoy being out on the trails recording the wildflowers in bloom. **Level:** No experience necessary.

**Saturday, July 1; 1 PM – 4 PM**

**Fee:** \$25 - Members • \$30 - Public • \$5 - Under 18

**Limit:** 16

**Location:** Kaye Cabin

#### ***Hummingbird Banding***

Join Lori Walewski, Wolf Ridge Naturalist and Master Bird Bander, as she bands hummingbirds at The Ridges Sanctuary. Come to the Visitor Center to observe and learn anytime from 9am to noon.

**Thursday, July 20; 9 AM – 12 PM**

**Fee:** \$5 - Members • \$8 - Public • Free - Under 18

**Location:** Cook-Albert Fuller Center

#### ***Lichens, Mosses & Ferns of The Ridges***

Often overlooked and under-appreciated, lichens, mosses, and ferns are wonderfully diverse and surprisingly beautiful. Explore The Ridges from with Joe Walewski, Wolf Ridge Naturalist and author of *Lichens of the North Woods* and *Ferns and Allies of the North Woods*. Learn the tools and techniques for identification. Casual strolls will never be the same again.

**Thursday, July 20; 1 PM – 3 PM**

**Fee:** \$5 - Members • \$8 - Public • Free - Under 18

**Location:** Cook-Albert Fuller Center

#### ***Dragonflies of The Ridges***

Venture outdoors with Dr. Paul Burton to learn about the dragonflies that make their home in the Sanctuary. You'll capture and identify different dragonfly species and have an opportunity to see Door County's federally-endangered Hine's Emerald Dragonfly up close! Great family activity with lots of photo opportunities.

**Saturday, July 22; 9 AM & 1 PM**

**Fee:** \$10 - Members • \$13 - Public • \$5 - Under 18

**Location:** Cook-Albert Fuller Center

#### ***Field Sketching Workshop: Insane Insects – Natalie Renier***

Join us on the trails to learn how to make observations and sketch what you see in a relaxed and comfortable setting. Visual note taking is an invaluable tool to enhance learning and gain an appreciation for the natural world. This workshop is designed to practice observing and sketching creatures that move. Naturalists and artists from beginner to the seasoned sketcher will enjoy up-close encounters with dragonflies, bees and other fancy fliers of The Ridges.

**Saturday, July 22; 1 PM – 4 PM**

**Fee:** \$25 - Members • \$30 - Public • \$5 - Under 18

**Location:** Meet at the Ridges Cabins, 8288 Cty Q

# RIDGES LITES

A Program Guide of The Ridges

## Lake Lessons Speaker Series

Thursdays, at 7 PM at the Cook-Albert Fuller Center. Admission is Free.

### ***Fantastic fungi: Movers and shapers of forest ecosystems***

**June 1**

Fungi are often overlooked and definitely underappreciated. Yet these diverse and highly evolved organisms are critical to function of forest ecosystems. Their varied lifestyles provide roles as symbiotic mutualists, nature's recyclers, or disease-causing tree pathogens. **Glen Stanosz**, Professor of Tree and Forest Health, will discuss why fungi profoundly influence the initiation, development, composition, stability, and change of forests.

### ***Bald Eagle Biology and Ecology***

**June 8**

Join **Joe Henry** for a discussion on the biology and ecology of bald eagles. Learn how to identify bald eagles at all life stages, and hear about the nesting success in Wisconsin. Joe will also discuss what types of trees eagles like to nest in and will also cover the eagle surveys conducted by the DNR that show how the species population has changed over the past 50 years.

### ***Restoring the Vegetation of Lower Green Bay***

**June 15**

Historically, lower Green Bay was home to an expansive wetland complex, but a number of factors have contributed to the substantial loss of lower Green Bay wetlands. The loss of this habitat has important impacts on recreational opportunities, fish and wildlife resources, and the economy. Join **Patrick Robinson** to examine the history of lower Green Bay and discuss current efforts to restore and expand habitat related to this globally important resource.

### ***Plum and Pilot Islands - Where Nature and History come to life***

**June 22**

Come learn about the current condition of the maritime safety buildings, US Fish and Wildlife and Friends of Plum and Pilot Islands plans for preservation. **Paul Schmacher** will discuss the natural world value of the islands, including bird nesting, stopover points during migration, the plant communities, invasive species control and regeneration of the maple/oak forest in light of deer browsing.

Discussion will touch on the geologic history of the islands, and long-term use of the islands for maritime safety.

### ***Journey of a Thousand Lifers***

**June 29**

Join **Bill Volkert** as he presents an around-the-world trip that he and his wife Connie took from September 2014 through April 2015. Traveling for nearly 8 months, they covered twelve counties from southern Africa to India and Southeast Asia, sighting more than 1,300 species of birds and over a thousand lifers. They traveled 55,000 miles and took 35,000 pictures to capture their adventures. This program provides an overview of their travels and some of the amazing wildlife and wild places they visited. This truly was a trip of a lifetime.

### ***I Heart Wisconsin River Trip***

**July 6**

**Ruth Oppedahl**, Executive Director of the Natural Resources Foundation of Wisconsin, will share her experience of a 18 day paddle from the source of the Wisconsin River to the confluence with the Mississippi. As a positive response to the state's budget cuts to natural resources, Ruth decided to use her vacation exploring our state from north to south and meeting with conservation groups and citizens along the way to learn how they help protect our lands, waters and wildlife.

### ***Rainbow of the Lakes - Current Research on *Iris lacustris****

**July 13**

Dwarf lake iris (*Iris lacustris*) is a rare, endemic plant with populations restricted to the northern shores of Lakes Michigan and Huron. In Wisconsin, the flower only occurs in Brown and Door Counties, with one of the most expansive populations located at The Ridges Sanctuary. **Vanessa Brotske**, a current graduate student at the University of Wisconsin - Green Bay, will discuss her current research involving pollination, seed dispersal, and germination of this rare plant.

### ***Lichens of the North Woods***

**July 20**

Lichens are a well-represented component of any healthy ecosystem. Though we all see lichens, few people notice them and even fewer understand the biology, ecology, and magic of lichens. Join **Joe Walewski**, author of *Lichens of the North Woods*, for an introduction to lichens of The Ridges.

For complete program info, visit [RidgesSanctuary.org](http://RidgesSanctuary.org)

# RIDGES LITES

## A Program Guide of The Ridges

### Lake Lessons *continued*

#### ***Piping Plover***

**July 27**

After a more than a 75-year absence from the area as a breeder, the endangered Piping Plover was documented breeding in Green Bay the summer of 2016. Piping Plovers have been attracted to the Cat Island Wave Barrier restoration site for the past several years and in 2016 the first recorded nest in Brown County history was found. Join **Joshua Martinez** as he discusses management of the Cat Island Wave Barrier site that is done in partnership between Wisconsin DNR, U.S. Fish and Wildlife, Brown County Port Authority, and others.

#### ***Chinook Salmon and Steelhead Management for Lake Michigan***

**August 3**

Wisconsin DNR fisheries biologist **Nick Legler** will share information on fisheries management for Lake Michigan. This presentation will focus mostly on Chinook salmon and steelhead. Topics may include fisheries management history, recent survey results, ongoing research, and recent management efforts.

#### ***Using Citizen Science to Track Great Lakes Fish Migration***

**August 10**

Shedd Aquarium and partners are engaged in two projects using citizen scientists to document fish migrations in the Great Lakes. The first project involves a concentrated effort to document sucker spawning migrations across a latitudinal gradient in Lake Michigan and Lake Superior, with the purpose of identifying temperature and flow levels that trigger the onset of migration. The second project involves an opportunistic approach whereby anglers document their observations into the Great

Lakes Fish Finder app. Join **Dr. Karen J. Murchie** to learn how you can join in the efforts!

#### ***Plant Disease Management***

**August 17**

Gardeners everywhere have suffered losses of vegetables, flowers, trees and shrubs due to plant diseases. An understanding of how plant diseases get into your yard or garden, and how they are able to infect your plants, can help you develop strategies to avoid serious problems. **Dr. Brian Hudelson** (aka "Dr. Death"), Director of the Plant Disease Diagnostics Clinic at the University of Wisconsin-Madison College of Agricultural and Life Sciences, will talk about how plant diseases occur and how they affect your plants. Strategies for preventing and managing plant diseases will be discussed to help you be more successful in the upcoming growing season!

#### ***Aquatic Plants and Animals of Wisconsin Lakes***

**August 24**

**Paul Skawinski** will discuss the diversity of aquatic plants and animals in Wisconsin lake ecosystems. From carnivorous bladderworts to fast-flying dragonflies, our lakes contain a myriad of fascinating organisms. This presentation will discuss ecology and identification of these plants and animals.

#### ***Karner Blue Butterfly***

**August 31**

**Chelsea Gunther** will be discussing the Federally endangered Karner blue butterfly's history, ecology, and importance. She will explain Karner population estimates from the last 9 years and how we obtain them. Chelsea will also talk about what recovery work is being done now, and why recovery efforts are important, especially in Wisconsin.

*Dwarf Lake Iris by Doug Sherman*

# RIDGES LITES

## A Program Guide of The Ridges

### **Annual Meeting & Gathering**, *continued from page 1*

helping out at the front desk, helping with various events and mailings, serving on the Upper Range Light committee, leading hikes for the Festival of Nature, and serving on the Governance committee. Sandy also leads hikes for the Door County Land Trust, volunteers at the Baileys Harbor Library and works as a tour guide at the Eagle Bluff Lighthouse in Peninsula State Park.

#### **Linda Brooks**

Following graduation from the University of Illinois with a Bachelor of Science in zoology and an MS in biology education, Linda held a variety of positions, primarily in not-for-profit organizations. She worked for the American Hospital Association for 16 years, several years working on freelance projects while raising her family, then 10 years as adjunct professor at a community college teaching introductory biological science courses. Personal volunteer activities included serving as secretary and president of the PTA and board positions, and presidency of a professional organization for women health-care executives.

Linda and her family discovered Door County and The Ridges in the late 1980s and vacationed annually in Sister Bay for over a decade. In 2015 she began volunteering at The Ridges front desk, as part of the flying squirrel box monitoring group and has taken the training for water quality testing.

Linda believes that her background working with different boards of directors, especially in the area of strategic planning and business planning, will be a strong asset in helping the Ridges face the challenges of growth and in moving the Ridges forward.

*Medland and Whitney bios available on web site.*

### **By-Laws Changes Proposal**

Members will be asked to approve a number of By-Laws changes and updates (last amended in 2012). Many changes were simple grammatical changes; some were a little more involved. All proposed changes were carefully drafted by a Board Committee, compared to State Statutes, and reviewed by corporate counsel. The full list of the proposed revisions can be viewed on the website under "Publications". Members are asked to review these proposed changes carefully before casting their vote.

### **Voting by Membership**

On August 5, 2016, the membership voted to approve allowing members to vote by either voting in person at the Annual Meeting, or by requesting an absentee ballot (via mail or on-line). Members may vote for the slate of Board Members presented in this newsletter, and for the proposed By-Laws changes (posted on the website) for the **August 6, 2017 Annual Meeting** in one of the following three ways:

- By voting in attendance at the Annual Meeting
- By requesting an absentee ballot through the mail to be returned at least one week prior to the Annual Meeting
- By voting on-line through a link found at The Ridges website, [www.ridgessanctuary.org](http://www.ridgessanctuary.org)

### **Board Volunteer Opportunities**

If you are a member of the Ridges seeking to become more involved, there are many opportunities available to you as the board of directors and staff move ahead with implementing the long range planning goals. Any member who would like to be considered for a board position should submit a statement of interest to The Ridges at [Info@RidgesSanctuary.org](mailto:Info@RidgesSanctuary.org) indicating your interest.
