

COVID-19 Response Plan Backpack Adventure Camp Updated March 10th, 2021

We have been working hard this year to ensure that our program is meeting the best possible health and safety practices in response to COVID-19. Our Response Plan is created and modified according to licensing regulations set by the Wisconsin Department of Children and Families, the Door County Health Department, and the Wisconsin Department of Public Instruction. Due to the changing nature of this virus and our knowledge about it, these policies are subject to change.

Goals for Backpack Adventure Camp

- Keep all students and staff physically safe
- Care for the social-emotional needs of students and staff
- Modify our morning routines to adjust our program in response to COVID-19
- Modify our spaces and protocols as needed.

What you need to know before Registering your Child

- If traveling to Door County from another county: campers must be in Door County for 10 days prior to the first day of their camp.
- Facemasks will be worn by educators and students at all times.
- Programming will be held 100% outdoors.
- Parents will be expected to screen their children for potential COVID-19 symptoms every morning before camp.
- A Parent Agreement will be provided to families that will outline COVID Protocols. This form must be signed in order for the student to participate in camp.

The Wisconsin Department of Public Instruction has recommended that all K-12 schools in Wisconsin create plans based on the following assumptions:

The virus will remain in circulation until a vaccine is widely used

- Improvements in understanding the virus and in testing will allow public health officials to act with greater precision when taking steps to slow the rate of infection
- Short-term closures of schools will remain a possibility until a vaccine is widely used
- Children and staff with significant health conditions will continue to be especially vulnerable during this time

- Reinforcing prevention behaviors will be essential strategies in slowing the spread of this and other infectious diseases
 - Frequent cleaning and disinfection of high-touch surfaces and materials are needed
 - Children and staff showing symptoms of contagious respiratory illness should stay home
-

Additional Notes:

Facemasks

Facemasks are currently required for all children, teachers, staff, volunteers, parents, and caregivers. Children are expected to come to camp with 2 personal facemasks.

Modifications to our Program

>Nature is our Primary Classroom

We are implementing an **all-outdoor model** and will only go indoors when there is lightning in the area. If thunderstorms or prolonged rain are predicted, class will be cancelled by 7 AM via email notification.

>Morning Routine and Bathroom – (Masks will be worn at all times)

Parents and caregivers should take their child to the bathroom right before leaving home.

- Children will come to class fully dressed in outdoor clothing and will begin the morning in the outdoor play area and will have Circle Time outside.
- After a bathroom break, we will head off on a hike and unstructured play in our nature area and will return in time for parent pick-up.

>Snack will be prepared in individual baggies and placed in children's hiking packs to be eaten as children wish, out in our nature area during unstructured play time.

>Materials cannot be shared. Therefore we will provide each child with a backpack stocked with nature tools and art supplies.

Drop-off and Pick-Up

When picking up or dropping off a child in our **car line**, please wait inside the car and a teacher/staff person will assist you. Our car line will enter the Nature Center parking lot at the south entrance and pull up to our lawn. **A teacher or staff person will help your child exit the car and grab materials while you sign our drop-off form.** You will be asked about COVID-19 symptoms in your household each day. We will need to know a phone # where you can be reached and who is picking up your child. We also ask that you **wear a mask** while signing in and talking with us. We will be wearing one as well. **Be sure to apply bug spray and sunscreen at home.** You will continue through the parking lot and exit at the north end.

Guidelines for Keeping Children Home

You should keep your child at home if:

- Your child has a fever. Fever reducing medication may not be used when determining a child's health. Your child should be fever-free for 72 hours before returning to school
- Your child is experiencing recognizable symptoms of COVID-19, including a cough, shortness of breath, intense headache, gastrointestinal ailments, or difficulty breathing
- Your child has been exposed to someone who has had COVID-19 (by testing or medical diagnosis) within the past 10 days
- Your child has had sustained contact (within 6 feet for 15 minutes or more) with a person showing symptoms of COVID-19 within the previous 10 days
- Anyone in your family is under a 10-day quarantine for COVID-19 *unless that person has tested negative*
- Your child should remain home if you are awaiting results of a COVID-19 test
- Your child or anyone in the immediate family has traveled out of Door County in the last 10 days.
- We also request that you keep your child at home if they are experiencing any symptoms of a contagious illness. Our goal is to avoid spreading illness of any kind to the children and adults in our program, which means keeping sick children and adults at home.

Actions Taken if a Child Develop Symptoms of COVID-19 at The Ridges

We will follow our regular protocols, but will take the additional step of informing the Door County Health Department.

- Remove the child from their group and relocate them to an isolated area with a member of staff; child and staff will wear facemasks
- Call the parent/guardian to pick up the child
- Report the event to the Executive Director and the Door County Health Department
- Notify all families in that camp of the event, without identifying the camper by name.

In Case Someone in the Program Tests Positive

- If anyone in our program tests positive for COVID-19, we will notify the families enrolled in that week's session. We will not identify the individual by name.
- We will follow the guidance of the Door County Health Department, which currently requires that anyone directly exposed to someone who has tested positive remain home for 10 days before returning to Preschool.
- *Close contacts must complete the full two-week quarantine before returning to school even with a negative result*
- A close contact is anyone who has been within 6 feet of someone who tested positive for COVID-19 for a cumulative time of fifteen minutes or more
- Follow Door County Health Department recommendations for quarantining an entire class
- If a person in our program tests positive, but shows minimal or no symptoms, they may return once they have completed their at-home isolation period and received clearance from the Door County Health Department. A negative test is no longer required.
- If a person in our program tests positive and *is symptomatic*, we will work with them on an individual basis, using input from medical professionals, to determine when they can return to our program.
- **We understand that no one gets sick on purpose. We ask for patience and understanding should anyone in our program test positive to COVID-19, just as we would any illness.**
